Docket No. L-00000B-15-0059-00170

Case No. 170

**APPLICANT'S REQUEST TO REMOVE
ITS APPLICATION FOR APPROVAL OF
A CEC FROM THE OPEN MEETING
AGENDA** Arizona Corporation Commission

DOCKETED

MAY 08 2015

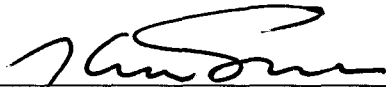

The Applicant, the Salt River Project Agricultural Improvement and Power District respectfully requests that the Commission remove L-00000B-15-0059-00170, the Application for Approval of a Certificate of Environmental Compatibility for portions of the Price Road Corridor Project, from the Open Meeting Agenda scheduled to begin May 12, 2015.

SRP is temporarily suspending its effort to seek approval for the Price Road Corridor 230kV transmission line project. In a vote occurring on May 7, 2015 the Community Council failed to approve the right of way consent. This is in spite of the fact that the right of way agreement had been previously supported in discussions between SRP and the Community leadership, and in spite of the fact that the transmission project was supported by the majority ownership of each of the allotments (lands) affected by the project. The negative vote followed three years of work by SRP to obtain a route alternative for the Project on the Community. The need for this project has not subsided and additional transmission capacity for the area is still required, and SRP will continue its efforts.

1 Additionally, under A.R.S. § 40-360.07 the Commission must act on a Siting Committee
2 order within sixty days. Because negotiations with the Community are ongoing, and because SRP
3 does not want to put the Commission in the position of voting on an application which might be
4 later withdrawn, SRP hereby waives the 60 day limit.

5 RESPECTFULLY SUBMITTED this 8th day of May, 2015.
